

# Organizational Constellations

Wednesday 8<sup>th</sup> May 2013

# Personal & Ecological Constellations

Thursday 9<sup>th</sup> May 2013

*Two exciting one-day workshops  
led by Jenny Mackewn,  
hosted by The Nature Effect at  
The Rotunda, Grove House, East Oxford*

The first workshop on organisational constellations is introductory in nature – using Bert Hellinger’s approach, widely used in Family Therapy, as applied to communities and organisations. It is suitable for those with little or no previous experience of constellation work. It will be of interest to community leaders, managers in public services, voluntary organisations and business.

The second workshop on personal and ecological constellations uses constellations methodology to explore our relationship with other humans and with Nature, the Earth and wider ecological systems. It is suitable for people who have attended the first workshop or with some previous experience of constellations work and an interest in the environment and nature connection.

**Working with the systemic approach is simple yet powerful:** we listen to each other’s stories and challenges. We identify the essence of the dilemma and set up a map where participants represent all the richly interconnected elements of the context in which the challenge is set.

## Cost £85 per workshop

(£65 concessions) which includes veggie lunch. Can be booked separately or together. Book both workshops for £130. Places are limited, so please book early to avoid disappointment for this unique opportunity. Email [thenatureeffect@gmail.com](mailto:thenatureeffect@gmail.com) or call 07932 241 733.
